

FA Mars Just Play

Developed by The FA and supported by Adult Football Partner Mars, FA Mars Just Play! is an easy and informal opportunity for adults to play football in an enjoyable environment.

Looking to play some informal football with a group of existing or new friends?... both men and women can choose how and when they want to play by just turning up or signing up on the website to an FA Mars Just Play! Centre, where a co-ordinator will organise games chosen by the players.

We now have Just Play Centres in **Swindon**. To book onto a Just Play centre please visit; <http://justplay.thefa.com/> just type in your postcode and off you go, simple as that!

FA Mars Just Play! is designed for all adult footballers, regardless of experience, ability or fitness. It will help the novice, part-timer or lapsed player to gain experience, rediscover their touch, develop fitness and enjoy playing in a non competitive environment. The games at FA Mars Just Play! centres will be informal and fun, but those looking for a route back into affiliated football will be signposted to local 5-a-side or 11-a-side competition.

The flexible format allows FA Mars Just Play! Centres to be adapted to suit the needs of the local population. It can be run anywhere from a local park or common to leisure centres and commercial 5-a-side set-ups. Centres are run by FA Mars Just Play! Organisers who will facilitate the activities and give support to all participants.

For those players wanting information on taking their playing careers further and onto either 11 a-side, FIVE a-side or Futsal please see the links opposite. For any further information on any of the above or information on your local clubs & teams within your area please contact tammy.pembleton@wiltshirefa.com or 01793 486047.
