

Wiltshire & Dorset County Football Association's Ability Counts League: Round 2

Wiltshire County Football Association hosted the 2nd fixture of the dual County Wiltshire & Dorset Ability Counts League for football players with physical and learning difficulties. 8 teams from the region competed across 2 divisions last Sunday on the fantastic new 3G pitches at Stanley Park, Chippenham.

5 teams competed in the Championship Division with a further 3 contesting the League Division. The standard of football was very high throughout the day with all teams competing for every challenge in a fair and sportsman like manner.

Dexter Sports Manager, Paul Kybert, commented:

“The second round of the League went very well yesterday, weather was great and the new facility at Stanley Park is superb. It was well run; the referees were great, fair but firm and communicated well with the players and coaches before, during and after the games”.

Swindon Leopards came out on top in both Divisions although they were run very close by all of the other teams. For up to date league tables please visit The FA's Full-Time website, <http://full-time.thefa.com>. There are 4 more fixtures to be played throughout the 2011/12 season so there are still lots of points to play for. The players all deserve a very well earned winter break over December with the next round of fixtures kicking off in Dorset on 29th January 2012. The remaining Wiltshire fixtures will again be hosted by Stanley Park on Sunday 19th February and 15th April 2012.

The league would like to welcome and support new players and teams so if you would like more information then please contact the Wiltshire County FA Offices on (01793) 486047. Wiltshire CFA currently supports 5 teams in the County, those being in Chippenham, Salisbury (x2) and Swindon (x2)but would also like to create new teams in other areas of Wiltshire to ensure football players with a disability have accessible opportunities to play.
